I created this website forum with as many "categories" I could think of but I'm a geezer and could be forgetting a lot.... so if you think of anything, put it in this thread and I will add it to the main categories.

## Post an image or a file from your computer

A screenshot of a file upload dialog box. The dialog shows a file tree on the left with 'OneDrive - Personal' expanded, showing 'Desktop', 'Documents', 'Email attachments', 'Music', and 'Pictures'. The 'Pictures' folder is selected. On the right, there is a preview area with several image files: 'Family Tree' (a yellow folder icon), 'AllOfUs.jpg' (a group photo), 'AllOfUs2.jpg' (another group photo), 'AllOfUs3.png' (another group photo), 'bird.jpg' (a hand with a sunburst effect), 'car.png' (a purple car), 'cows.png' (two cows), and 'family.png' (a group photo). A red arrow points from the 'Choose File' button in the dialog to the 'bird.jpg' thumbnail. A red circle highlights the 'Choose File' button. The dialog also includes a 'File name:' input field, a 'File type:' dropdown set to 'All Files (\*.\*)', and 'Open' and 'Cancel' buttons. The background shows a 'Leave a reply' text area and a toolbar with text and image editing tools.
